Bridgie's Lips  
Sealed in  
Hospital

NEW YORK, June 14.—"Bridgie" Webber, one of the four gamblers who testified against Police Lieutenant Becker and the gunmen convicted of the murder of Herman Rosenthal, another gambler, in the underworld as a "squalor" in the Rosenthal case, the "informer" closed up tight when detectives tried to get from him the story of the attack.

At first Webber tried even to hide his own identity, and the fact that he had been wounded. The stabbing occurred on East Eighth street. Webber tried to walk away on the arm of a friend hiding the wound, but on Broadway, in front of Grace church, he sank exhausted and admitted to a policeman that he had been stabbed.

## HOTEL OAKLAND SOON TO BE ON PAYING BASIS

Rooms Show Profit of \$10,000 for April; Funds Used in Finishing

Valter H. Lemert, president of the Hotel Oakland Company, has issued a statement to stockholders in which he announces that the operating department of the new caravansary is expected soon to be not only on a paying basis, but showing a profit.

The communication follows: Oakland, June 12, 1913. To the Stockholders of Hotel Oakland Company—Dear Sirs: In accordance with notices sent you by the secretary of the Hotel Oakland Company, assessment No. 3 for \$10 per share is levied on all stock of the company, payable June 14, 1913.

Concurrent with the announcement of the levying of this assessment, I wish to make a formal statement for the purpose of disabusing the minds of some of the stockholders of the impression that the assessments that have been levied and that will be levied are principally to cover deficits incurred by the operation of the hotel.

NEARLY PAYING BASIS. Such is not the case. The hotel while not on a paying basis as yet, is steadily reducing the difference between the income and cost of operation, and the time, we believe, not far distant when the operating department will show a profit. As an indication of the gratifying increase in the popularity of the hotel, I may cite the fact that while in January and February the operating cost amounted to several thousand dollars in April the loss has been cut to the

## Hangs Over 100-Foot Abyss to Shoot Himself

SAN DIEGO, June 14.—Hanging far out over the side of the Thirtieth street bridge, which spans a 100-foot canyon, Henry W. Hildreth, 70 years old, was on the point of firing a bullet into his brains when John Fitzpatrick, passenger, and C. C. Miller, conductor, on an incoming car, jumped toward him, wrested the revolver from his hand and dragged him back from his perilous position. He was taken to the police station and later removed to his home. Hildreth was formerly a printing shop proprietor. Hildreth had made doubly sure that his attempt would be successful. He had figured that if the gun in his hand did not prove fatal, the fall in the canyon would follow it.

## Cruiser Fires Upon Moors Pillaging Spanish Gunboat

ALBUQUERQUE, N. M., June 14.—An official despatch received here today says: "A large party of Moors boarded the Spanish gunboat General Concha after the crew had been taken off when she went ashore on Thursday near here. They fired upon the vessel when the cruiser Reina Regente came up and fired her main battery, killing 10 and wounding 30."

## SUFFRAGIST MARTYR IS AT REST

Procession of 6000 Women  
Is Feature of Funeral of  
Miss Emily Davison

LONDON, June 14.—Suffragettes came from all parts of England today for the funeral of Miss Emily Wilding Davison, who met her death while interfering with the king's horse in the Derby June 4.

A special train brought the body from Epsom to Victoria where a procession of 6000 women was waiting to escort it to St. George's church, Bloomsbury, where the service was held.

Mrs. Emmeline Pankhurst was arrested again today and taken to Holloway. She had been released on license on May 30 in consequence of 11 hours' hunger strike, while she was serving her sentence of three years' penal servitude.

Mrs. Pankhurst was on her way to attend the funeral of Miss Davison.

## REV. CHARLES AKED IS MADE CITIZEN

Noted Divine Forswears  
Allegiance to King; Is  
Now American

SAN FRANCISCO, June 14.—Rev. Dr. Charles Frederick Aked, a clergyman of international repute, forswore his allegiance to King George of England today and became a citizen of the United States.

Dr. Aked came to this country six years ago to become pastor of the Fifth Avenue Baptist church, New York, which is attended by John D. Rockefeller. In 1911 he became pastor of the First Congregational church of this city. In England his last congregation was that of Pembroke Chapel, Liverpool.

Witnesses testified today that he was a man of good moral character and depositions from New York were read certifying to the length of his residence there.

The ceremony, in conformance with the law, proved that he was a man of sound moral character and that he did not believe in polygamy and anarchy. He testified that he was born August 22, 1864, and that he landed in New York April 17, 1907. His witnesses were J. H. Morse, a retired business man of 169 Bush street, and Al Crandall, a mechanic, of 1316 Polk street. They, however, had known him only two years, and so he was forced to produce affidavits which came from New York and were sworn to by Dr. A. R. McMichael and William H. Hayes, a broker, both members of John D. Rockefeller's Fifth Avenue Baptist church, of which Dr. Aked was formerly the pastor.

WASHINGTON, June 14.—Attorney-General McReynolds returned to Washington today and immediately began considering the proposition of the Union Pacific Railroad to merge with the United States Court at St. Paul to exchange \$5,000,000 of Southern Pacific stock for the Union Pacific's railroad holdings of Baltimore and Ohio.

Such an arrangement incidental to the dissolution of the Union Pacific merger, the attorney-general said did not on the surface present a situation to which the government could object but he was studying the inter-relationship of the roads and seeking advice to determine finally whether the transfer could be regarded as obvious.

WASHINGTON, June 14.—Viscount Chinda, the Japanese ambassador, has advised Secretary Bryan that Japan is willing to renew for another period of five years her arbitration treaty with the United States which expires by limitation August 24.

Secretary Bryan, making the announcement today, said he not only hoped but expected the Senate to ratify the new arbitration treaties already signed with Great Britain and other countries despite the opposition against them. No date for the signing of the Japanese renewal has been determined.

President Wilson has had frequent conferences with the arbitration treaties with Senators at the White House and at the Capitol.

## COMMISSION HOLDS WATER CO. MUST MAKE CONNECTION FREE

GLENDALE CASE DECISION IS SWEEPING

SAN FRANCISCO, June 14.—The State Railroad commission in a decision rendered in the case of the city of Glendale vs. the Glendale Water Company, this morning established a precedent which will effect nearly every water company in the State of California, and be a benefit to consumers everywhere.

Based upon the demand of the Glendale water company that the property owners be charged for installing the water meters and for connecting pipe lines with the main conduits of the company. The commission in its opinion today holds that the water company is responsible for the charges named and that the consumer must not be forced to pay for such meter charges or connecting of lines. The decision declares that customers of water companies must pay for pipes on their own property only and that the water property line. Consumers are also relieved for installing the meter.

June 10, 1913—Defendant's counsel enters motion for new trial.

June 11, 1913—Motion for new trial denied and defendant sentenced to serve a term of five years in San Quentin.

SAN FRANCISCO, June 14.—With tears streaming down his face, with one hand clutching a chair for support and the other nervously clutching a handkerchief, Frank Esola was sentenced today by Superior Judge Dunne at 11:55 this morning to serve five years at hard labor at Folsom penitentiary on a charge of grand larceny. The maximum penalty is ten years. It is not thought that his counsel will appeal from the sentence and he will probably begin to serve his term next week.

The passing of judgment upon Esola was the conclusion of as dramatic a career as has ever been witnessed in local courts.

The defendant had just refused to make an open confession in court. He declared that he knew nothing that would implicate his brother officers and was glad that he could say nothing which would place them in his predicament.

The session of nearly two hours preceding the sentence was taken up with legal fencing between counsel for the defendant, Judge Dunne and the prosecuting officers.

The end was heart rending in its spectacle of the complete

## WILL HEAD ELECTRIC SERVICE UNIT

J. C. McPherson of Pacific  
Electric to Have Charge of  
Southern Pacific Here

Electrical Man of Wide Ex-  
perience Given Full Charge  
of Alameda Service

The destinies of the Southern Pacific electric lines in Oakland and surrounding territories will in future be under the guidance of J. C. McPherson, formerly superintendent of the northern division of the Pacific Electric Company, according to dispatches from Los Angeles today, which tell of his resignation from the post in the southern city after 12 years of service, to take the new place in this city. Alameda, Oakland, Berkeley and Albany lines will come under his direction, according to the announcement, and it is expected that he will be here in a short time to look over his new field.

McPherson's electrical experience has practically been with the southern company. He has watched the Pacific Electric grow from a small affair to one of the largest concerns of the kind in the world and has been superintendent of his division since J. C. McPherson's resignation.

The appointment follows closely that of W. T. Maddox, former superintendent of the southern division of the same company, to the office of manager of the Utah Light and Railway Company at Salt Lake City.

APPOINTMENT UNCONFIRMED. SAN FRANCISCO, June 14.—Word received from Los Angeles to the effect that J. P. McPherson, superintendent of the northern division of the Pacific Electric Company, had been transferred to the superintendent of all of the Southern Pacific electric lines in Alameda county could not be confirmed by the officials of the corporation here this morning. Paul Shoup, who early this week was placed in entire charge of all of the electrically operated lines in this state, has the authority to appoint a superintendent. He is at present in Los Angeles.

McPherson is known to be a trusted official in the south where his work with the Pacific Electric has been highly spoken of.

## Fire Auto Hits Train; Driver Fatally Hurt

ALAMEDA, June 14.—Fred Wagner, fire department engineer, was probably fatally hurt and the new auto fire engine recently purchased by this city splintered when the new engine crashed into an east-bound Alameda local Southern Pacific train this afternoon.

The auto was completely over-buried the driver beneath the wreckage. He was extricated in an unconscious condition and new hovers between life and death at the Alameda hospital.

Wagner, in the new auto fire engine, was rushing to respond to an alarm of fire turned in from Willow street and Pacific avenue. As he attempted to cross the tracks at Lincoln and Walnut avenues the train, approaching at a swift rate of speed, and the auto met in the center of the street on the north track.

## Laborers Attacked; Battle Is Fought

Thirteen employees of the Pacific Gas and Electric company engaged in putting up wires on Thirtieth and Grove streets, engaged in a battle with more than 30 union men at 2 o'clock this afternoon with the result that A. Love, an alleged strike breaker, was beaten up by the men and several others were fired. A Pacific Gas and Electric company man was brought to the Central police station in company with Alfred Ruff, a union man. According to Love, the men were attacked in such work when at least 100 men, some of the union, were struck with some heavy implements and several of his teeth knocked out. He expressed severe accusations about the men.

Architect J. J. Donovan was a joint note from all those holding school contracts. The notice stated that the city would be threatened with a strike if the city would not agree to work on the new City Hall.

The trouble has come as a result of the stringency in the money market, that has resulted in the failure of the city to dispose of its municipal improvement at 800000 roubles, bonds at 10 and 20 per cent are being offered in Europe to obtain money for the Dnieper bank debt and there is no money in the market for the 4 1/2 per cent bonds of the city.

That the trouble is merely temporary is the belief of Mayor Frank K. Mours, Commissioner Harry S. Anderson, City Auditor George Gross and others who have canvassed the situation. The credit of the City of Oakland has in no way been called in question, and it is merely a matter of a short time before the matter can be adjusted satisfactorily.

If this were not done the material on the various jobs would be demanded, and the city would suffer financially." Every effort will be made to save the city without injuring the contractors.

"City Treasurer Edwin Moese explained that there was no money in the bond funds at the present time to meet the demands, and that bonds would have to be disposed of to obtain funds. But there is no money for bonds being offered at the present time. The matter has been placed in the hands of City Attorney Ben F. ORE than ever this year Americans are following out the charming custom of the English in giving names to their country places and often to their sea. In England almost all country places have an appellation—one that expresses a great deal about the people who live in it. For many years the names carried characteristic descriptions of many places, towns and in the country.

Other farms are "Arden," which includes the famous Harriman dairy, "Southern Farm," the home of the Heilmans, near San Leandro, and "Alden Farm," in Fruitvale, where the William Magees have lived since the earthquake.

"Greenbank" is the name of the Frank Brigham home at Los Gatos, and the Louis Titus wonderful place at Piedmont has been named "Green Acres." "Forest Meadows" is the name of the Fraher place in Siskiyou county, and along the McCloud river one finds "The Bend," the home of the Wheelers, "Fortune Tellers' Camp," the country place of the Thomas Williams, and "Wynton," the well-known summer home of Mrs. Hearst. "Wynton" is the name of a tribe of Indians which formerly lived on the McCloud.

"Inglesbrook" and "Idlewild" are favorite names, the latter the name of the Lake Tahoe place of the Frederick Kohls. "Friendship Villa" is the name of the famous McLean country home near Washington, and "Duck Pond" is the usual place at Bear Harbor. One of the famous summer homes in the East is "Garrison on the Hudson," owned by Mrs. Stuyvesant Fish.

The Walter Martins are occupying this season "Stag's Leap," the famous country home of the Chases in Sonoma county, and the Von Schroeders have closed this season "Eagle's Nest," their well-known country place in San Luis Obispo county.

es on the coast, with a wonderful scheme of lighting. There are magnificent chandeliers and the lights are arranged in three great circles, with a wonderful dome effect, making a picture of superb brilliancy. The mural decorations, with the fine paintings and splendid marbles brought from abroad, make the church of St. Francis de Sales one of the most beautiful and most artistic east of the Rocky mountains. Our own people are beginning to appreciate the beauty of the church and it is now being shown to the many visitors to our coast.

It made a magnificent setting for one of the most interesting weddings of the year.

The bride, who was Miss Gladys Wilson, has always lived in Oakland and her family is well known on both sides of the bay. This is supposed to be the nuptial season, when many people are out of town, nevertheless nearly every prominent family in the city was represented in the church. All the details were perfectly arranged and the wedding presented a series of pictures that were charming.

Miss McNally, the organist of St. Francis de Sales church, is, without doubt, one of the finest organists on the coast and her playing was a long train, which was of a single width of material, with a true lover's knot or 'broidered in orange blossoms. The bride's bouquet was of lilies of the valley and orchids, tied with bows of wedding tulle.

Miss Mignon Wilson was her sister's maid of honor and she was a most picturesque maid, in a dainty gown of pink, trimmed with lace and tiny ruffles.

Mrs. Wilbur Wilson wore a costume of black charmeuse, very effectively made and trimmed in gold lace.

The ceremony was most impressive being read by Father O'Neill of Newman Hall of the University of California. The altar was ablaze with lights and the wedding party, standing on the high steps of the altar, made a picture impressive and beautiful.

At the Wilson home the reception was arranged on a most magnificent scale. The grounds were bright with electric lights and the home was a superb color study, worked out in American Beauty roses. The bride's table was in pink, with great bows of rose-colored tulle and with pretty painted name cards.

Seated at the bride's table were Mr. and Mrs. Albert Rees, U. S. N., Mr. and Mrs. Jack Van Sichten (Sue)

troops and the tens of thousands of spectators fringing the shadeless field by cutting the review short almost an hour. There would have been many prostrations if the spectacle had been prolonged to the usual length.

Among the Emperor's special parade guests were President Benjamin Ide Wheeler of the University of California and Mrs. Wheeler, who are spending a week in Berlin renewing the many friendships formed when President Wheeler officiated as the Roosevelt professor to the university here in 1911.

The "Wheeler Society," which the university formed in honor of the California educator, held a special meeting to mark his visit, and on Thursday afternoon the university authorities placed the "Roosevelt Room," where President Wheeler formerly had his headquarters, at the disposition of himself and wife, for the purpose of holding a reception of friends. President Wheeler was also invited to the annual parade dinner at the Royal Castle on Monday night.

In the course of a conversation with the Kaiser he was called upon to elucidate the latest phases of the California-Japanese situation, in which his majesty is taking the liveliest interest.

## MORE GATES OPENED TO AUTOMOBILISTS.

Many motor trips are being planned to Yosemite Valley this season, since, after a stubborn fight, motor cars are to be at last allowed in the valley. It is the day of the motor and it is useless to cry out against it. Even the most conservative strongholds have gone down before its advance.

After ten years of exclusion, Bar Harbor, in Maine, the most exclusive resort on the Atlantic seaboard—not excepting Newport—is opening its doors to automobiles. For a decade motorists have looked longingly at the attractive roads and shaded drives of the island. At last the barriers have been let down, but only after a long and bitter fight in the Legislature, contested at every point. The venerable Dr. Charles W. Elliot led the fight against the admission of motors, and a powerful lobby at Augusta did its utmost, but the feeling was too strong. The question, local largely, got a touch of national interest on the reading of a telegram from President Wilson to Dr. Elliot hoping that he would be successful in keeping motor cars out.

Californians have won their way to Yosemite by way of the motor, and roads will now be made safe. It would be a splendid thing if the government would replace the slow stage coach, leading from El Portal into the valley, with motor cars. It is now a long, slow, dusty drive, when it might be a short one, full of interest. Yosemite Valley will be the destination of many enthusiastic motorists this year, and already many reservations by prominent people have been made at the many camps there.

## SEASON OF UNUSUAL ENTERTAINMENTS DUE.

One hears that in Europe, and in the East it is to be a season of unusual entertainments. The world dominated by the smart set is looking always for something unique, for that which is original. In the East entertainments have practically begun with the first house party given by Mrs. Stuyvesant Fish, one of the acknowledged leaders of the New York smart set. She gave a large house party at Garrison on the Hudson.

One of the features was a lawn party, which was attended by the hostesses of several other house parties at adjoining estates, who also brought their guests to Glenclyffe.

The lawn party entertainment began with the arrival of the Morris dancers in an old-time cart filled with hay and drawn by oxen, and preceded by bagpipers. The Morris dancers did a series of Scotch dances, reels, and hornpipes, and afterward tea was served on the broad verandas.

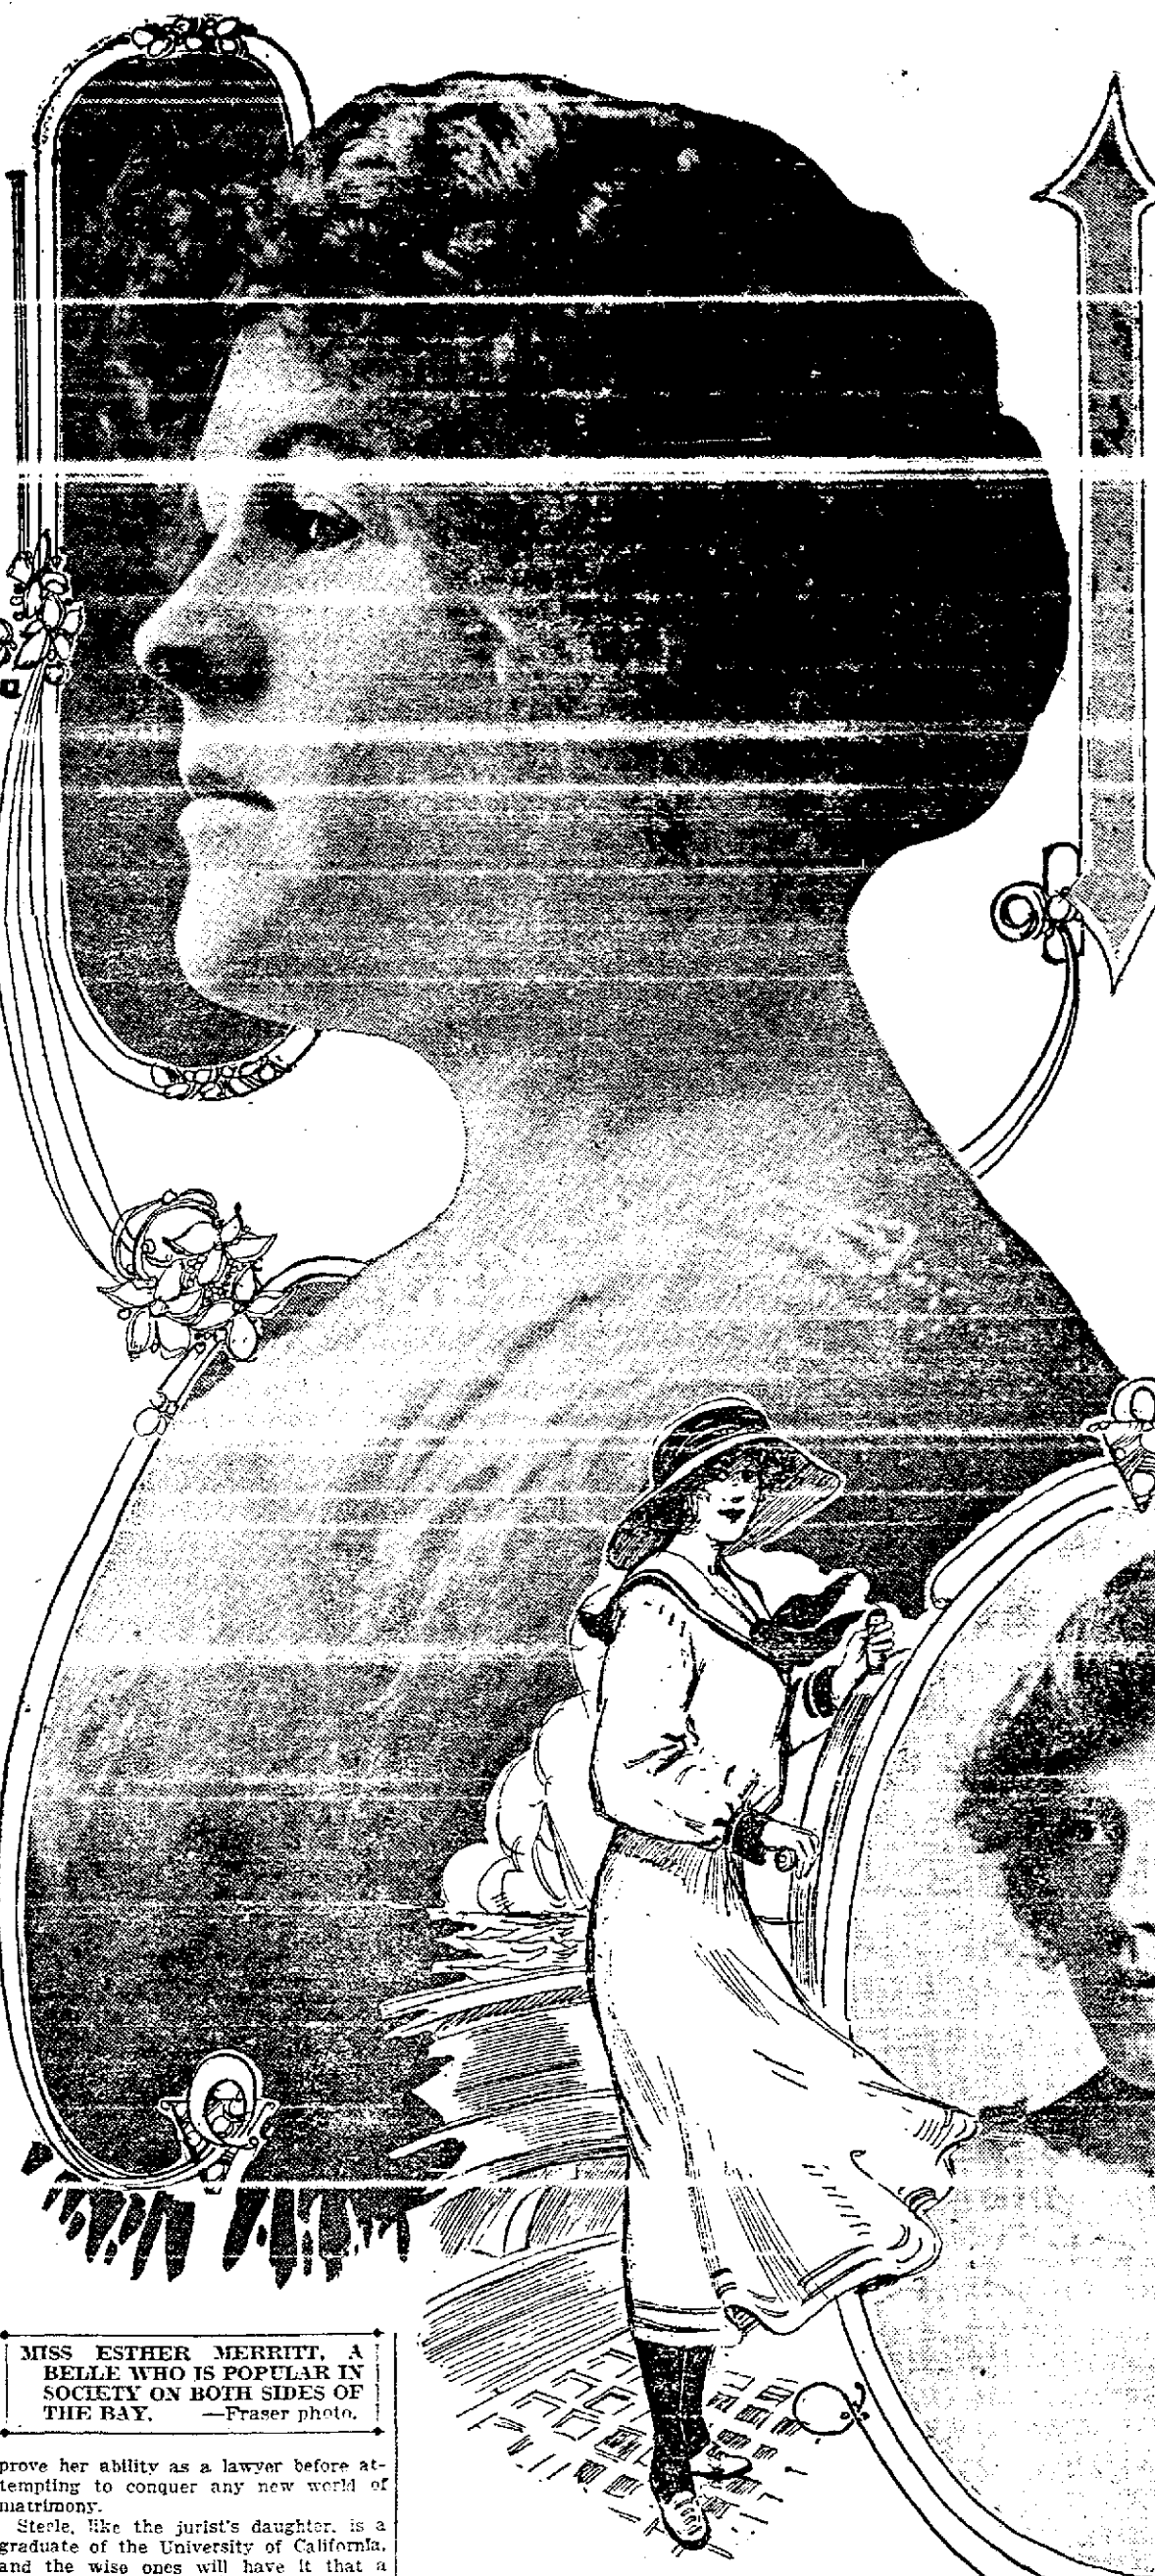

Many of the Newport villas are to be opened this month, and the summer activities will be fairly begun, all along the Atlantic seaboard early in June.

THE OFFICE is not an acceptable spot for romance, which is perhaps the reason why the rumored engagement of Miss Marguerite Ogden, daughter of Judge Frank B. Ogden, to Francis Steele is neither affirmed nor denied by the fair maid, whose shingle has been hung out in the Monastnock building across the bay. With her friend, Miss Annette Abbott Adams, Miss Ogden occupies offices for the practice of law several days a week after completing a seven years' course in the law at Stanford University. Perhaps one reason for lack of confirmation of the engagement rumor is Miss Ogden's wish to

prove her ability as a lawyer before attempting to conquer any new world of matrimony.

Stella, like the jurist's daughter, is a graduate of the University of California, and the wise ones will have it that a college romance of the type from which the Berkeley oaks have become famous is behind the story of the betrothal. He is the son of a prominent lumberman of the north, and has spent much time in travel since his graduation, when he was an honor man.

But Cupid's plans will have to wait until the present attitude of the attractive society girl is rightly interpreted. Perhaps Cupid will slip into the office with a client of his own some day, and then there will be announcement of a new partnership for the charming and clever young woman.

**BRIDGE CLUB ENTERTAINED.** Mrs. George Percy entertained the members of the Thursday Bridge Club during the week at her handsome home on Grand avenue. After the games of bridge tea was served in Miss Isabelle Clark Percy's studio, where the guests enjoyed an exhibition of the interesting subjects which Miss Percy found for her brush to portray during her recent stay abroad. The Munich work in pastel, of which Miss Percy had such a delightful display at the Ebell art exhibition, was much admired. The members of the Thursday Club include:

Mrs. Frank B. Ogden, Mrs. Neusbaumer, Mrs. J. W. H. Storor, Mrs. Samuel Sheper, Mrs. Leon Hall, Mrs. M. K. Miller.

Mrs. M. A. Miller will be the next hostess to the club, entertaining them at her home in Adams Point.

**PRESIDIO CHAPEL WEDDING.** The wedding of Miss Dorothy Keleher and Lieutenant Carroll Armstrong Bagby in the Presidio chapel last evening, was one of the most picturesque weddings of the spring. It was a Japanese garden wedding. The bride wore white satin brocaded with gold roses instead of the usual pure white, with a corsage of princess lace and a train of the same lace over chiffon, caught with orange blossoms. Mrs. James Keleher was matron of honor and the bridesmaids were Miss Dorothy Reed. They wore gowns of pink and lavender chiffon with shadow lace and carried sweet peas. The bride

is the only daughter of Major T. D. Keleher, who gave her away.

**RETURN FROM HONEYMOON.** Mr. and Mrs. William Cavaller are at the Adams home on Telegraph avenue for the summer. They returned from their honeymoon trip to Tahoe a few days ago. The marriage of Cavaller and Miss Camille Adams, the charming daughter of Mrs. Frank Lenuel Adams, was a social event of a few weeks ago, and the youthful matron will be the inspiration for much informal entertaining during the summer months. Later in the season Cavaller plans to build a handsome residence in Piedmont for his bride.

**WEDDING AT HOME.** Miss Edna Anderson, daughter of Mr. and Mrs. W. W. Anderson, became the bride of Otto Schrader Wednesday evening at a pretty ceremony at the home of her parents in Kirkham street. Pink and white were the colors used in the appointments, and the home was effectively decorated with pink sweet peas and La France roses. The bride wore a robe of white brocaded chamoise, embroidered in pearls, with a long veil and orange blossoms. She carried a shower of white orchids and lilies of the valley.

Miss Edith Anderson, the bride's sister and maid of honor, wore a gown of pink chamoise and carried Cecil Bruner roses. About a hundred and fifty guests heard the marriage service read by the Rev. Albert W. Thomas, D.D., of the Episcopal church.

der acted as groomsmen for his brother. An elaborate wedding supper was served after the ceremony in a large pavilion which had been erected in the garden and which was also done in roses and sweet peas.

After a wedding trip of a month Mr. and Mrs. Schrader will make their home in San Francisco, where Schrader has built a new home for his bride. He is engaged in business across the bay.

**FAREWELL LUNCHEON.** An appointed luncheon during the week in honor of Mrs. Edward B. Clapp, who will leave next month with her daughter, Miss Edith Clapp, for a sojourn abroad,

was given at the home of Mrs. Clapp, who was the guest of honor. The luncheon was given by Mrs. Clapp, who was the guest of honor. The luncheon was given by Mrs. Clapp, who was the guest of honor.

Miss Bead Cawston, who went north a month or so ago with Miss Esther Brad-

ford, who had been her house guest at the Henshaw home for several weeks, is at present in Portland, where she is enjoying a delightful stay. In a few days she will leave for Victoria, where she will visit the Buchard family. Ransome Henshaw will leave within the next few days to join his sister and accompany her on a further tour of the north. Mr. and Mrs. Tyler Henshaw have returned from their trip south, and will be at their home in Vernon Heights until later in the season, when they will go to Tahoe.

**CHURCH WEDDING.** Miss Ruth Lavina Hickok last evening became the bride of Herbert Bartlett in the College Avenue Methodist church. The marriage was solemnized by the Rev. J. H. N. Williams, assisted by the Rev. C. A. Westenberg, in the presence of the

A dozen guests shared Mrs. Wrampelmeier's hospitality at the farewell festivity.

**RETURNS HOME.** Miss Nathalie Cole, the attractive daughter of Mr. and Mrs. Nathan Cole, Jr. of Benvenue avenue, Berkeley, is being welcomed home by her friends. Miss Cole has been attending the Olympic school near Philadelphia. She will spend the summer with her parents.

**RANCH RAG PARTY.** A rag party on a huge ranch in the Contra Costa foothills with a real country breakfast to wind up the festivities in the morning, is the diversion offered by Miss Ida Graff to a hundred of her friends this evening. The ranch, belonging to the hostess' brother, Alfred T. Graff, will be the scene of the jolly gathering tonight.

**JINKS FOR CLUB MEMBERS.** For the pleasure of the members of the Northbrae Nobles, who are still in town, a jinks has been arranged by the club for this evening. It will take place at the home of Miss Isabel and Miss Beatrice Olds on Arlington Road, Berkeley.

**LEAVES FOR MOUNTAINS.** Mr. and Mrs. John A. Gremann and family have closed their Walnut street home in Berkeley, leaving today for the Santa Cruz mountains, where they will spend the summer.

**LEFT FOR EAST.** Mrs. John Nye of Berkeley and her daughter, Miss Jane Nye, left yesterday morning for a visit in the East. They will be the guests of friends in Milwaukee and Lansing, Mich., for about two

at her sister at Hittsborough. Mrs. Schumann-Heink, the noted singer, arrived here yesterday to spend the summer months at her home in the mountains at Grossmont, where a colony of world-famous musicians have planned to winter. She is accompanied by her daughter, Miss Schumann-Heink, and son George Washington Heink. This is the first time she has occupied the home.

**FORMER SENATOR VISITS.** SAN FRANCISCO, June 14.—Former United States Senator William A. Clark of Montana spent yesterday in San Francisco in connection with his business interests, having motored from Elia Palomar, the country home of his son, Charles W. Clark, whom he is visiting at Hittsborough.

ator Clark is on an annual inspection tour of his California and Arizona properties, and has been at Los Angeles for several days.

**SCHUMANN-HEINK IN SOUTH FOR SUMMER.** SAN DIEGO, June 14.—Mrs. Ernestine Schumann-Heink, the noted singer, arrived here yesterday to spend the summer months at her home in the mountains at Grossmont, where a colony of world-famous musicians have planned to winter. She is accompanied by her daughter, Miss Schumann-Heink, and son George Washington Heink. This is the first time she has occupied the home.

## MARY GARDEN'S VOICE GONE? LONDON HEARS THAT IT'S TRUE

MARY GARDEN, WHOSE VOICE IS LOST, ACCORDING TO RUMOR THAT LONDON HAS HEARD.

PARIS, June 14.—The latest story current in operatic circles is to the effect that dress rehearsals of Wolf Ferraris' "Jewels of the Madonna" at the Grand opera house have been indefinitely postponed owing to the alleged breakdown of Mary Garden, who is said to have lost her voice for the time being. The production of "The Jewels" has been postponed until September next. Attempts to locate Miss Garden for the purpose of verifying the rumor proved unsuccessful.

## Proposed While Liner Waits

NEW YORK, June 14.—Just as the last gangplank was hauled aboard the steamship Philadelphia yesterday, and the vessel's siren gave its departing wail, seven pretty girls and a worried looking chaperon rushed down the pier with cries of "We want to get on."

Another plank was lowered just as a taxicab stopped in front of the group from which popped an excited young man. He made a rush for the prettiest of the girls, and while the others shrieked with delight went down on his knees in the taxicab and began a passionate proposal.

Miss Sylvia Moore of San Francisco was the object of his adoration, and she seemed to enjoy the situation hugely. Bystanders could not hear what she replied, but later it came out she had refused to accept anybody on Friday, the 13th.

Miss Moore is one of a party of seven California society girls who will tour Europe this summer, chaperoned by Mrs. J. C. Everding. They spent last week seeing New York, and met so many young men that Mrs. Everding doubted if she could keep the promise she had made to their parents that she would return them without engagement rings.

"I'm Mr. Nobody from Nowhere, and I don't see that it is anybody's business but my own," is all the ardent swain would tell the reporters. In the party, besides chaperon and Miss Moore, were the Misses Rose and Mary Bernard, the Misses Mary and Julia O'Donohue, Miss Betty Storow and Miss Ruth Wolfkill.

## Prays for Sight; It Returns

LONDON, June 14.—Katherine Welsh, a Manchester girl, who had been blind for eleven months, recovered her sight suddenly while weeping beside the death bed of her grandmother, to whom she was greatly attached.

The grandmother had been sick for some time and a week ago Katherine prayed fervently that she be able to see her once more. When the grandmother died Katherine was led up to the coffin, which she was able to see and get a last glimpse of her grandmother. Her sight is still imperfect, and it was that way before she was stricken with blindness, but she is now able to see her way and to distinguish people at a distance of a few yards.

The doctors who treated her in Manchester hospital and the Catholic Home for the Blind at Liverpool confirmed this story.

## Accuses Girl of Poison Plot

SAUSALITO, June 14.—Alleging that his daughter Rosa had threatened to poison the entire family because of her father's dislike for her soldier dance, William Dane, a private stationed at Fort Baker, Gabriel Fulleire appeared before Justice Thomas Maguire yesterday and asked for a warrant for the love-lorn young woman's arrest.

Justice Maguire denied the warrant because of insufficient evidence, but sent Constable Paul Trout to investigate the matter. Trout proceeded to the family home on Locust avenue, between Caledonia and Bonita streets, and in the girl's room found a bottle containing corrosive sublimate and other acid. The girl denied that the poison belonged to her and said she knew nothing of it, but it was later learned that she bought the drug from a Sausalito apothecary and signed for it May 14.

## Marshall's Borrow Pastor's Baby

WASHINGTON, June 14.—Vice-President and Mrs. Marshall have borrowed a baby to enliven the loneliness of their Washington home. He is Thomas Marshall Sutherland, 4-year-old son of the vice-president's pastor.

There are no children in the Marshall family, and both are devotedly fond of children. When they visited Berkeley Springs recently, Mrs. Marshall fell in love with her husband's namesake and borrowed him.

Young Thomas Marshall thinks "Papa Marshall," as he calls him, is the best chum ever. Mrs. Marshall says borrowing a baby is a sure cure for the "blues."

## Eight Times Around Globe

NEW YORK, June 14.—Miss Jessie Ackerman, the woman champion globe-trotter, arrived here yesterday from an eight-years' tour around the world, her eighth globe-trotting trip in twenty years. She has broken the woman's record, with 381,000 miles to her credit.

On this trip she visited fifty-two countries and experienced every kind of ancient and modern travel. Miss Ackerman said the happiest and most professional women are in Australia.

## She Dodged June 13 Jinx

NEW YORK, June 14.—Miss Adela Ritchie, the actress, was not married yesterday, Friday, 13th of June, 1913, to Charles Nelson Bell of New York city. She was married to him Thursday in Stamford by Justice of the Peace Clune. The pair were accompanied by the bride's sister, Mrs. Charles Boyd. They are now touring through the Berkshires in an automobile.

Miss Ritchie said she had selected yesterday for the wedding to show her contempt for traditional taboos. She confessed to Justice Clune that she felt, and that she had just run over to be married right away lest she be tempted to take the chance she had as first so bravely defied.

## Second Triumph of Irish Home Rule.

The British House of Commons has again passed the Irish Home Rule bill by a big majority and for a second time it goes to the House of Lords to receive that body's veto. The bill must be passed by the Commons for a third time within a year, when it will become self-operative despite the opposition of the Lords. Now the Ulster men are threatening civil war in the event Irish home rule is established. Meantime, they have started an anti-home rule campaign throughout Great Britain hoping to work up public sentiment against the Asquith government and force it out of office before the home rule bill can come up for passage the third time. They are likewise making strenuous efforts to get the ministry, individually and collectively, involved in a Marconi stock jobbing transaction as another means of turning the tide of popular opinion against the government and hastening its downfall.

The Ulsterites are evidently making a hopeless fight. The anti-Irish home rule campaign may make some impression in the

Wales, for both are candidates for home rule themselves. In fact, a home rule bill for Scotland has already been introduced in parliament and it will doubtless receive the same support in the Commons as Irish home rule has obtained and, probably, the same opposition in the House of Lords, and become law by the same process. Wales will demand naturally the same privilege of self-government over its local affairs.

Home rule in Wales, if ever granted, will be the means of settling the question of the disestablishment of the Church of England in the principality. Home rule, indeed, seems to be the easiest way for Non-conformist Wales to secure that reform for which it has been fighting for over a half century.

The threat of Ulster to inaugurate a civil war as soon as Irish home rule goes into effect is wholly empty and harmless. Sir Edward Carson, the parliamentary leader of the Ulster men, is said to be financing a movement for supplying the Ulsterites with arms. But the easy manner in which the government agents are discovering and seizing rifles packed in cases labeled as containing machinery when an attempt is made to smuggle them into Ulster, and the rabid secession speeches of Carson indicate conclusively that the sole purpose is to stir up popular fear. It is ridiculous to assume that four anti-home rule counties in Ireland can dominate the other twenty counties in the island which are solid home rulers. Ulster is doing a whole lot of blustering now; but when it comes to the last word it will doubtless accept the situation with the best grace it can command.

The magnitude of the California raisin industry is shown in the announcement just made that the business which an associated raisin company organized by the three packing firms in Fresno expects to transact this year will involve the use of approximately \$10,000,000. And yet it is reported that there are eight or ten other large packing firms that have not yet joined the association.

The acceptance of Russia's friendly offices to act as arbitrator by Serbia and Bulgaria to settle their difference over the division of the territory acquired by conquest and the proposition of the Servian government to the Bulgarian government that each demobilize three-fourths of its military forces gives stronger assurance of the restoration of peace to Europe than anything that has recently happened within the sphere of international trouble. Even little Greece is willing to submit to Russia's arbitration her own contention with Bulgaria as to which nation shall be accorded sovereignty over Salonika.

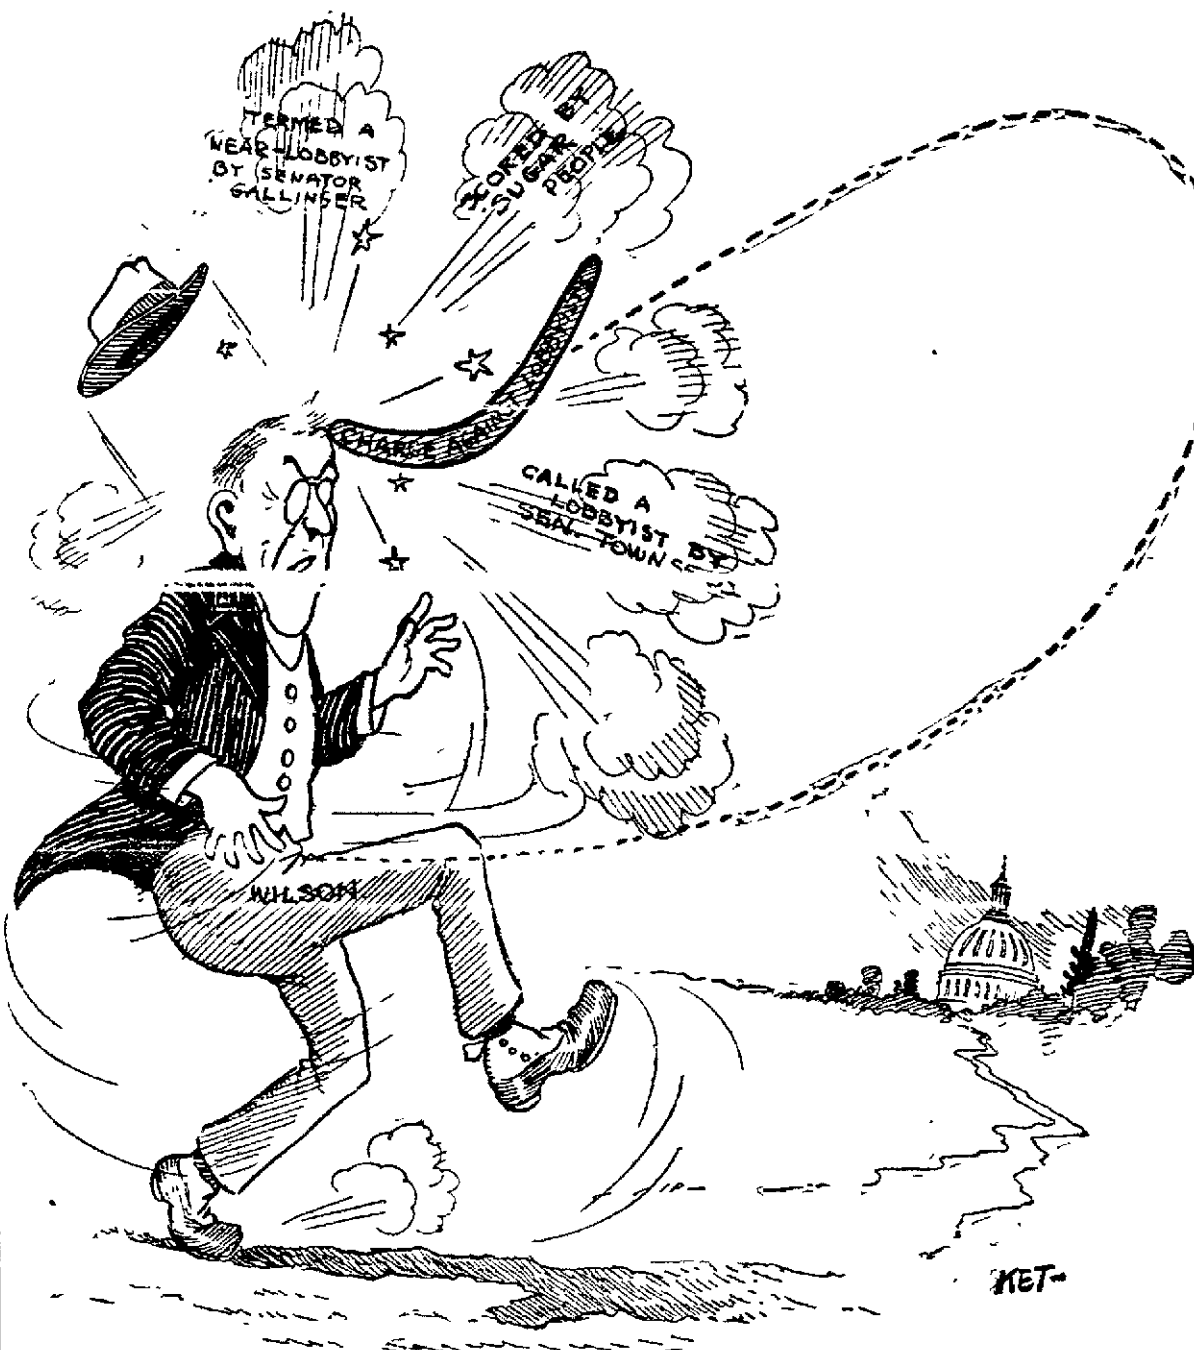

Icebergs are again floating southward with the Labradoran current across the trans-Atlantic steamship line. A berg one-half mile long and 150 feet high was sighted this week in latitude 40 degrees 2 seconds north and longitude 43 degrees 20 seconds west. It must have been in the neighborhood of the scene of the Titanic disaster. The presence of such a large berg so far south so early in the season will doubtless force the passenger liners to follow a more southern and longer route across the Atlantic, as they were compelled to do after the loss of the Titanic to assure the safety of their vessels and the lives of their passengers and crews.

## Planning New Roads to Yosemite.

The Stanislaus County Board of Trade sees a grand opportunity offered for home development in the recent decision of Secretary of the Interior Franklin K. Lane to allow automobiles to enter Yosemite valley. At a recent meeting of the directors a resolution was adopted urging the Board of Supervisors to call an election authorizing the issuance of \$2,000,000 in bonds for the construction of cross-country roads to unite Modesto, the county seat, with the Coulterville and Big Oak Flat roads. These highways have been designated by Lane as the roads best adapted to carry the auto traffic and the United States army officer who is acting superintendent of Yosemite Park and the valley, is now putting these roads in a condition that will assure the safety and comfort of autoists traveling over them. He is receiving the co-operation of the authorities of the counties to be benefited by the road travel.

The construction of new roads across the country on a direct east and west course from Modesto to join the Big Oak Flat and Coulterville highways ought to be a good investment for Stanislaus county, as they will shorten the route in and out of the valley from the San Francisco bay region and divert the traffic through Modesto which is represented to have fallen into a decadent condition since it became a dry town. This proposed system of new roads will also have the effect of advertising the county, its resources and possibilities, in a way that cannot now be done. The natural results will be outside investment in Stanislaus property and the encouragement of its settlement and the rapid development of its great agricultural and horticultural resources. California will be the Mecca of thousands of European and eastern colonists as soon as the Panama canal will be open for the passage of steamships. These will be attracted here by rates of water transportation and the great majority of them will be land-buyers and home-seekers. Those counties that have the same foresight and enterprise which Stanislaus possesses to build and improve their local roads, no matter what may be the social object inspiring the improvement at the present time, will untold benefits from this prospective influx of new population. The purpose of the Stanislaus County Board of Trade now is to continue some of the trade of auto travel to and from Yosemite. The purpose of the proposed expenditure of \$2,000,000 in good roads benefits of a far more substantial and permanent character are sure to follow.

## Solar Halos and Sun Dogs.

If Professor Burckhalter has been reported correctly as saying that sun dogs or mock suns are phenomena which usually occur in winter and are uncommon in the summer months, he is evidently at fault. Mock moons are common winter phenomena in northern latitudes; but sun dogs in winter are never seen there, for the simple reason that the sun in the Far North is not visible above the horizon for several of the winter months. And yet mock suns or sun dogs are common phenomena in the Far North in the summer season. All Arctic explorers have mentioned them in the records of their expeditions.

Sun dogs or mock suns and their accompanying halos are not, however, confined to the polar zone. These phenomena are not unusual even in the tropics; in fact, astronomical records credit them to all latitudes. The most eminent physicists ascribe them to the crystallization of vapor in the upper strata of the atmosphere and the refraction of the sunlight on the refracting faces of the prisms of the crystals.

"That a phenomenon caused by ice crystals floating in the air is not confined to winter or to the polar zone, but is also itself in the tropics," says G. Harting, an authority on the aerial world, "is not to be wondered at when we consider that even under a vertical sun the upper regions of the atmosphere are intensely cold, so that the aqueous vapor of any warm current that rapidly ascends to a considerable height is liable to congelation. Aeronautes have often felt warm summer below and met with snow in the clouds above."

Around San Francisco bay, sun dogs are not infrequently seen. They are not usually visible with marked intensity. On rare occasions they are, however, very pronounced. Whenever they have appeared here a foggy haze has pervaded the atmosphere. Perhaps, one of the most extraordinary phenomena of this kind witnessed in the San Francisco bay region occurred in the summer of one of the middle '70s of the last century, when four sun dogs almost as brilliant as the sun itself figured through the hazy atmosphere at mid-day, one at each end of an illuminated vertical bar, terminating in a bright halo surrounding the sun and one at each end of a horizontal bar terminating in the same way. The illusion lasted for at least an hour and excited much public curiosity owing to its exceptional brilliancy and the unusual length of its duration.

At Wednesday evening's meeting of the Board of Education, its members were unfairly assailed by some of the parents of the High School boys who had been suspended and expelled from that institution for violating the anti-frat law because they would not restore them in good standing in consideration of their resignation from the fraternity which they had joined and the return of the charter which the local body had received from the parent organization. The Board of Education had no alternative in the matter and the parents of the ostracized boys knew it. The board's action was not taken as the result of a whim; but in obedience to the dictates of a statute duly adopted by the Legislature and approved by the Governor. There was no other course for the members of the board to pursue other than that which they took. To have complied with the demand of the parents of the boys who violated the law would have invited the impeachment or recall of the school directors voting for it, for these parents knew that the directors were merely performing an unpleasant and unavoidable duty imposed upon them by law. It, therefore, jillically became those who sought to influence the members of the board to violate a law which they are pledged under official oath to sustain and heap abuse on them for performing their duty.

The women of Illinois have finally been granted the right of suffrage in a modified degree as the result of a vigorous crusade which has been carried on for a period of nearly fifty years, a bill having passed the Legislature granting to women all the powers of voting which the State Constitution, as it now exists, makes it possible for them to enjoy. Governor Dunne is expected to sign the bill without delay which will then go into effect July 1. It is foreseen that a constitutional amendment will follow which will place both sexes on an equal suffrage footing.

The platform of the Berkeley Independent party is being circulated. It suggests the proper lighting of the town, improved sewerage, a new high school building, the division of the city into five wards, limiting the tax levy to 75 cents, including 25 cents for schools, condemnations, strife and the indiscriminate granting of franchises of licenses to street railway corporations.

It is true that women more frequently suffer from kidney trouble than men. It is also true that they suffer more intensely, owing to their more sensitive organism. Katherine L. Norton, New Bedford, Mass., says: "I had a terrible pain across my back, with a burning and scalding feeling. I took Foley Kidney Pills as advised, with result certain and sure. The pain and burning feeling left me, I felt toned up and invigorated. I am glad to recommend Foley Kidney Pills." They are tonic in action, quick in results. ## HISTORY IN SECTIONS

In the twelfth century London enjoyed football. Fitz-Stephen, clerk to Thomas a-Becket, tells how, after dinner, the youths of the city would "address themselves" to football. These sportsmen were fastidious in their way. The scholars of each school had a ball peculiar to themselves, as had indeed most of the particular trades. The fathers of the players, too, were "as youthful as the youngest." For, "their natural heat seeming to be revived at the sight of so much agility," they sprang from their stands into the arena. In later days, too, the excitement of the game has been known to infect the spectators. Somebody wrote of a game in 1598: "These two men were killed by Ould Gunter. Gunter's sonnes and ye Gregories fell together by ye years at football. Ould Gunter drew his dagger and broke bothe their heades, and they died bothe within a fortnight after."

As long ago as the reign of Edward III the hunger strike was known in England. Cecilia, wife of John de Ryegway, was in 1357 confined in Nottingham jail on a charge of murdering her husband, and there, according to the old records, she abstained from meat and drink for forty days. Which being reported to the king, he was "moved by piety and for the glory of God and the Blessed Virgin to grant the woman a pardon." The records say nothing of her guilt or innocence, nor do they throw any light on fourteenth century ideas of forcible feeding.

The remarkable recognition of Christianity by the new Chinese government is the most striking stage in a story which has covered nearly a millennium and a half. ## RACING PIGEONS IN ENGLAND

The pigeon racing season is about to open in England, and among the items of interest is the great Yorkshire combine race on July 1 and 2 from Rennes, in Brittany, which is to be put into operation for the first time. The race will be flown in two sections, to be known as the eastern and western sections. The eastern section will comprise the Haverham, Wool, the Leeds, the Wakefield, and the Barre ev federations. The western section will embrace the Northwest Federation, including the Bradford, Kelghley and Skipton districts; the West Yorkshire Federation, covering the Halifax area, and the West Yorkshire Central Federation, covering the Huddersfield area. The prize money will amount to 200 pounds (\$975), with the addition of 250 pounds (\$1215) from the pools, but it will be all located in equal awards for the first bird home in each section, and also it is understood for birds in each section up to the twentieth place.

A new society, the Yorkshire Western Social Circle, has been established for long-distance racing fanciers. The secretary is Mr. James Breary of Baldon, near Bradford. The circle has organized a race of 500 miles from Doi, in Brittany, for June 14. Interest in long-distance "pigeon racing" will also be enhanced this year by the 3000-mile flight from Rome to England, which is to be attempted during the coming season. Birds from all parts of the country will compete. In 1912 a distance of 800 miles, of which the first 300 miles had to be flown over sea, was accomplished successfully from the Faroe Isles to Harrow, near London. —Daily Consular Reports.

## Michael Joseph Cheerful Always

Michael Joseph Conboy is endeavoring to get out of San Quentin on parole. The convicted slayer of Bernard Lagan believes that his good behavior during the years that he has been a guest of Wardin Hovle entitles him to that consideration at the hands of the Board of Prison Directors. Possibly Conboy believes that as a member of the San Francisco Police department at a time is enough to represent the city department at the State's bastion and the therefore want to ride way to another one who is all out of the way—Frank Kozlowski. Not minding a young man Conboy was given three years, and now expects parole, and evidently will receive it, as there appears to be no opposition. Conboy would never have had to serve time, according to a story in general circulation, if he had

believed it would be better for the heirs of Lagan, Conboy's victim, to have that amount of money than for Conboy to go to jail. But the doughty police captain believed he could "beat" the case, and the \$2,000 not care to part with any such chunk of hard-earned dollars if he could avoid it. But he had to spend that and considerably more, as it finally cost him \$20,000—the better part of his fortune—lawyer fees and other expenses, and he had to take the ride to San Quentin.

The former police captain is as irrepressible as yore. He assists in showing visitors through the hangings rooms, and he has a line of running comments that lightens up the gloomy performance of showing the unsophisticated visitor the grisly array of exhibits from the ropes

"If I had known it was so pleasant over here I wouldn't have spent so much money trying to stay away," he remarks.

Mrs. Penness Cobb Hale and her son, Ensien Hamilton Bryan, are expected to arrive next week from Annapolis. Mrs. Hale, accompanied by her husband, has been traveling on the coast for the last three months. Upon their arrival in New York, Mr. Hale came direct to Salisbury, where his charming wife went to Annapolis to witness the graduation exercises of her son, who has completed his first-year course. Upon their departure, the entire family will go to the Hale summer home at Shasta for two seasons.

Mrs. Hale, who was Mrs. Linda Bryan before her marriage five years ago to the wealthy merchant, had the distinction of being the first society woman to take up newspaper work, making a great success of social writing for one of the Sunday papers.

Her daughter, Miss Linda Bryan, will be one of the belles of next winter and will probably enjoy her mother's grade of society.

WANT POSTER TO  
DEPICT GREAT DAY

Native Sons Offer Prize of \$50  
for the Most Artistic  
Drawing.

The committee in charge of the admission day celebration to be held here September 6, 7, 8, 9, by the Native Sons of the Golden West, report excellent progress, and from present conditions prophesy complete success.

The poster committee has interested many prominent artists throughout the city in the honor of drawing the winning poster depicting the great day.

The requirements are:  
That the poster must be finished and in the office of H. Vogt, secretary, by Saturday, July 12. The design may be in three or five colors and should be characteristic of the State of California and with one main idea that may be used as a trademark of the Admission Day celebration. The only lettering to be on the poster is "Admission Day Celebration, September 6, 7, 8, 9, 1942, Oakland, California." The size of the poster is to be 22 inches wide and 35 inches high. The winning poster will become the exclusive property of the Ninth of September Committee. The one whose design is accepted by the three judges, appointed by the committee, shall receive a \$50 cash prize. The poster is to be signed by a distinguishing mark, put into an envelope and the name of the designer put into another envelope with the designer's mark. These should be sent together.

The committee that is now active in raising a fund of \$20,000 to defray the expenses of the Admission Day celebration is meeting with splendid success.

Professor John Smith and Charles D. Smith trained the band, which is composed of forty pieces.

SPRECKELS PLANS TO  
CURE POLITICAL "ILLS"

LONDON, June 14.—Rudolph Spreckels today said that the renewal of rumors in the American colony in London that he had been offered and had refused the post of ambassador to Berlin, and that Mrs. Spreckels was urging him to accept, had caused him great annoyance. Spreckels said:

"Years ago I announced my irrevocable decision never to accept public office, neither by appointment or election. During the Presidential campaign I made it clear that I wanted nothing and would accept nothing. I want to preserve my independent status. I believe this rumor was started by persons anxious to embarrass the Administration by making it seem that the President is having the greatest difficulty to find a man for the post."

"Personally I want nothing. I only desire to carry on my public work, and consider this a noble privilege to leave to my son that the fact that I held a great office. My life's desire is that by the younger generation of rich men giving up themselves disinterestedly in public service we shall prove that the ills of politics can be cured."

Mrs. Hamilton Tells How She  
Finally Found Health in  
Lydia E. Pinkham's Veg-

Warren, Ind.—"I was bothered terribly with female weakness. I had pains and was not regular, my head ached all the time, I had bearing down pains and my back hurt me the biggest part of the time. I was dizzy and had weak feelings when I would stoop over, it hurt me to walk any distance and I felt blue and discouraged."

"I began taking Lydia E. Pinkham's Vegetable Compound and am now in good health. If it had not been for that medicine I would have been in my grave a long time ago."—Mrs. ARTIE E. HAMILTON, R.F.D. No. 6, Warren, Ind.

Another Case.

Edmond, R.I.—"I write to tell you how much good your medicine has done me and to let other women know that there is help for them. I suffered with bearing down pains, headache, was irregular and felt blue and depressed all the time. I took Lydia E. Pinkham's Vegetable Compound and commenced to gain in a short time and I am a well woman today. I am on my feet from early morning until late at night running a boarding house and do all my own work. I hope that many afflicted women will try your medicine. It makes happier wives and mothers."—Mrs. AGNES HANSEN, Edmond, Rhode Island.

## Short Sermons for Busy Readers

## AXIOMS.

"All shams perish in the presence of truth."  
An axiom is so self-evident a truth the mind cannot conceive its opposite. 1. Sin cannot keep its promise. The fig tree which withered in the presence of the Christ on that first Monday of passion week is a type of all unreality dying when brought into the presence of the real. Sin is unreal. It decks itself in leaves many and promising, but has no fruit to give. Max Muller says of the Hebrew and Greek words in our Old and New Testament, which we translate "sin": "There lies in these etymologies the deep conviction that man in sinning has never attained what he sought; that sin is essentially a delusion and a fraud."

Sin holds out the promise of health, happiness, peace, power, but robs us of all four. The word most employed in the sacred writings to express sin means

or happiness by the path of wrong doing and he will miss the mark.

2. Sin has no independent existence. God makes forest and quarry; man house and city. Houses and homes have no independent existence. God grows grain; man makes liquor. The first drink thrills, the last kills. First gambling wins something; last loses everything. Name a sin that can stand alone.

## SIN IS UNREAL—A SHAM.

Sin is unreal, a sham, a stupendous fraud. A thirsty man, but what it looks like is unreal. A thirsty traveler follows a mirage to die of thirst. The drunkard chases drink to overtake what he never finds—the satisfaction of his thirst. Sin and salt water are alike—they do not decrease, but only increase thirst. Coleridge in Ancient Mariner cries:

## THE WAY OUT.

How can we dispel the nightmare of sin? Awake fully and deny its power over you. Tell sin it is a liar. Demand it leave your home and heart. Take a perfect example, Sydney Lanier says:

"What moist, what flav, what lapse,  
What least defect or shadow of defect,  
What rumor tattled by an enemy  
Of inference loose, what lack of grace  
Even in torture's grasp or sleep's or death's,  
Oh, what amiss may I forgive in thee,  
Jesus, good paragon, thou crystal Christ?"

James B. Orr

Rev. Jas. B. Orr is pastor of the Myrtle-Street Congregational church of this city.

"Hymn to St. Anthony" will be sung by the St. Anthony's choir.

NAVAL AVIATOR  
DIES IN FALL

Lieutenant of Royal Flying  
Corps Killed and Passen-  
ger Injured.

LONDON, June 14.—Lieutenant James E. B. Kennedy of the naval flying corps of the Royal Flying Corps was killed and C. Gordon Bell, another aviator, seriously injured in the fall of a monoplane yesterday. Bell was driving the machine with Kennedy as a passenger.

The monoplane, at a height of about thirty feet, was flying at the rate of eighty miles an hour when Bell essayed a turn and banked the machine at too great an angle. The nose of the machine dipped suddenly and a wing struck the ground, causing the aeroplane to turn turtle.

Both Kennedy and Bell were buried in the wreckage.

This is the second fatality in the Royal Flying Corps in less than a month. Lieutenant Desmond L. Arthur of the Fifth Battalion Royal Munster Fusiliers, having been killed near Montrose, Scotland, May 27.

DEFAULTING AUDITOR  
CONFESSES HIS THEFT

HONOLULU, June 14.—Charles K. Maquire, defaulting County Auditor of Hawaii, has confessed and pleaded guilty on the first of a string of indictments handed against him. Sentence will be passed June 16.

It is stated that a large number of others will eventually be implicated in the crimes for which Maquire is held and which is estimated to have cost the county of Hawaii in the neighborhood of \$200,000, running over a long period of time.

Sequel To  
Love for Doll

Maternal Instinct Greatly Developed by  
Teaching Children to Love their Dolls.

The little child's doll is mother to the most romantic fancy. And in the years that pass, the doll fades into the petals of a June rose, to evolve the most wonderful of all transformations.

Now comes a more sublime transformation when the joy of real motherhood should be as tranquil as best effort can provide.

This is accomplished with a wonderful remedy known as Mother's Friend, an external application so penetrating in its nature as to thoroughly lubricate every cord, nerve, muscle and tendon involved.

There will be no pain, no sense of that burning, itching, no sensation of distress or strain of expanding muscles. The nerves, too, will be calm, thus making the period one of restful days and peaceful nights.

Frank Morrison, a shoe worker of East Weymouth, formerly employed by the Thomas G. Plant Company of Boston, testified.

The court adjourned until June 25.

POSTAL CARD LEADS TO  
CAPTURE OF SUSPECT

SAN FRANCISCO, June 14.—Detective Cottle used the alias of Goodman in effecting the capture of an alleged burglar who was taken into custody yesterday after a three weeks' search. The man under arrest is Harry Ash and he was caught by means of a decoy postal card sent by Cottle to which he signed the name Goodman. Ash was a painter and Cottle wrote that he had three cottages

branded new coat. The postal was duplicated by a friend to Ash who had the coat and today he walked into the baited trap, going to Cottle's own home, 1422 Webster street.

# APPOINTMENTS ARE CONFIRMED

## Alameda Auditor's Deputies Named by Council Com- mittee After Debate.

ALAMEDA, June 14.—The council committee last night confirmed the appointments of Ernest Mayrisch and George C. Christensen as deputy auditors but put over until Tuesday night the matter of confirming the appointment of Christensen as city hall deputy. Mayrisch draws \$125 as a deputy auditor while Christensen draws \$85 a month as deputy auditor.

Linked with this vote on the appointment was a report from the public utilities committee reporting against the proposition to create the office of city expert and appoint Councilman E. B. Bullock to the place. The report held

prevented the effective employment of a purchasing agent but recommended that the charter be amended so that all city buying could be done by such agents. Councilman Bullock recently resigned from the purchasing committee. In special council session preceding the committee meeting last night the council accepted the resignation and Councilman Frank H. Bartlett was made head of the finance committee. Council

The matter of the city hall deputyship was discussed at length. It was stated by Council President Morgenstern that the opposition to confirming the mayor's appointment was on the grounds of economy. He announced the council majority figured on having the mayor's secretary, Miss Hazel Dredgen, serve as council secretary.

committees minute clerk, and also serve as assistant city clerk during day office hours, thus doing away with the city hall deputyship.

**OPPOSE CHANGE.**

Cornelline E. J. Probst, William Hammond, Jr., and Colonel Bullock oppose the change, holding that the city hall deputy was necessary and that it was scarcely seemly for the council to make a minute clerk and entail additional work on the mayor's secretary. Finally the matter went over until Tuesday night the regular council meeting night. The

Then a vote was taken on the appointment of Mayrisch and Christensen as deputy auditors. The first ballot was a oral one. The council president declared the appointments carried by a vote of 10 to 2.

On the Christensen deputy auditorship issue, the vote was all affirmative. In the

done away with the council will likely fix a new salary for Christensen as the mayor's secretary and the emergency help employed in rush seasons is paid as much or more than the \$85 which Christensen's auditor's position now carries.

## ODD FELLOWS OFFICIATE AT SERVICE FOR PIONEER

BERKELEY, June 14.—Members of the local lodge of Odd Fellows officiated at funeral services over the remains of Frank Adelseck held at the late residence, 3028 Grove street, this afternoon.

He was born in Germany 62 years ago. For thirty-five years he was a member of Eureka lodge of Odd Fellows. He was also affiliated with the A. L. Thomas tribe, No. 87, Improved Order of Red

gineers' Beneficial Association, his occupation being that of a marine engineer. He leaves a widow, Mrs. Ada Adelsack and one son, Edward Adelsack of the city. Death occurred on Thursday night following a lengthy illness.

BERKELEY, June 14.—Students at

University of California, this year will be afforded the opportunity of pursuing one of the most comprehensive courses in modern American history which has ever been offered here. It will be under the general direction of Frederic L. Paxson, professor of American history at the University of Wisconsin.

The course will be a general survey of recent American history.

Professor Paxson is one of the best known authors on American history. He is a graduate of the University of Pennsylvania and of Harvard University. He has delivered lectures throughout the country and abroad.

Women Issue Edict: "Come in Ordinary Hand-Me-Down Suits."

HAYWARD, June 14.—Formality is to be routed from the social life of the Hill and Valley club. As a result of this edict swallow-tailed evening dress and even the Tuxedo will bring the strong disapproval of the club members upon the unlucky wearers of these formal masculine fashions, who attend club functions.

"Come in your everyday suits" is appended to the invitations extended by the Hill and Valley women to their male friends to be present at the banquet.

Next Tuesday evening, "Highbrow stuff" will not be tolerated at the banquet, remarked one of the members of the club, a well-known society woman. "The function will be strictly informal. We want everyone to be at his ease and formal etiquette in dress will be dispensed with. We have decided that formality is a nuisance, and cannot exist in the genial atmosphere of the club."

Several men of fashion in Hayward saw the warning to "wear the wearing of the willow" and were delighted with the decision of the club. One prominent business man and a well-known was of the opinion that the women of the club would soon change their views about their male guests wearing every-day garb. "The clothes we wear day in and day out," he said, "are bound to get grimy, and when we dance with women their delicate white dresses suffer from contact with such clothes. This is not the case with evening dress wear, which we don only on special occasions. Besides, most men like to appear well dressed at such functions, and I don't see why the club should balk us of a chance to air our dress suits. Take it from me, this departure of etiquette will not last long."

"Why, I think it's the best thing the club could have done," the opinion of another "mere man." "The starched feeling of stiff etiquette that accompanies evening dress will be done away with, and there will be no ice of ceremony to break."

It is a distinct relief to me to be able to leave my work and come straight to the banquet after a wash-up, instead of spending half the evening getting into fancy 'duds,' whatever the male element thinks, however, on this question of dress, the members of the Hill and Valley club are determined to stick to their guns as suffragettes, and the officer who appears with an expanse of shirt front may look for a snubbing.

SUNDAY SCHOOL  
CHILDREN SPEAK

Songs and Recitations Compose Program to Be Given Sunday Evening.

HAYWARD, June 14.—Children of the city are to hold their exercises tomorrow evening. The first part of the program will consist of songs by the school and recitations by the primary children. The following recitations: "His First Piece," Ernest Nelson; "When I'm Big," Big Boy; "When I'm a Man," Fred Johnson; "The Offending Boy," Jack Koll; "The Offending Boy," Anna Mudge.

DOG RUNS MAD AND  
SNAPS AT CHILDREN

HAYWARD, June 14.—A mad dog, which was shot before it did any harm, caused consternation at the corner of A and Castro streets yesterday. Snapping and snarling at passersby, the dog soon cleared the street and several children had narrow escapes from being bitten.

SEWER SYSTEM IS  
CAUSE OF PROTEST

Elmhurst Citizens to Take Up Matter to the City Council.

ELMHURST, June 14.—Declaring that the new sewer system in Elmhurst is growing "little better than a cesspool," through lack of proper flushing with water, the residents in this district have determined to carry the matter before the city council. A committee of ten from the Elmhurst Board of Trade inspected the sewer system this afternoon, with the object of gaining definite information to lay before the council. B. Wilson, a prominent member of the Board of Trade, said no satisfaction had been

obtained from the city council. The new sewer system in Elmhurst was laid a few months ago at considerable expense, and the early protest taken by the residents has come as a surprise.

PICK BUNKER HILL  
DAY FOR FIGHT

The Battle of Ballots Will Take Place to Decide Saloon Issue.

SAN LEANDRO, June 14.—Public interest in the bay cities centers on the "no-license" election, which will be held here next Tuesday, and which will decide whether the saloons in this town will remain open or not. A large number of people from Oakland and the surrounding towns, Hayward, San Lorenzo, are arranging to be present Tuesday evening to hear the result of the election. It is expected that the result of the poll will be declared shortly after nine o'clock, as no time will be lost in counting up the votes in the three precincts. Of the 1600 voters in San Leandro it is anticipated that the great majority will cast their vote, and feeling runs high over the issue.

The Women's Temperance Union is planning to open a free buffet for the "no-license" election, and a "no-license" election, when free sandwiches and other refreshments will be served.

The "Wets" will hold their next mass meeting on the plaza Monday evening, at 8 o'clock. The subject was what effect a "dry" town has upon a community. Election day, June 17, is also Bunker Hill day, which is looked upon as a sort of augury by both sides in the fight. As was the case of Bunker Hill, the side which runs short of powder, or votes, will be forced to retire from the fight.

HAYWARD STORES  
ARE BURGLARIZED

Petty Thieves Antoy Business Men; Get Little of Value.

HAYWARD, June 14.—Hayward is at present infested by a gang of thieves, and no fewer than five business premises were broken into this week. The house-breakers secured little of value and it is thought that the burglaries are the work of petty thieves, who work at night time and break into as many premises as they can "take in" at a single shift. The following business premises were broken into this week: Amara's fruit store, cash register broken into, but no money secured; Strobel & Neudack's butcher shop, \$1.50 in money stolen; Thorup, Moody's hardware store entered, but nothing of value taken; two bridles stolen from G. Jackson's feed store; blankets stolen from Foster lodging house, where thieves secured a room for the night. Constable W. J. Ramage and Marshal Charles Schilling are endeavoring to locate the thieves.

BOYS' BAND TO  
GIVE CONCERTS

Watsonville Lads to Play in Fruitvale and Oakland Soon.

FRUITVALE, June 14.—The famous Watsonville Boys' Band will give a concert June 30, at the invitation of Father Idephonse of the Franciscan church, who founded the band four years ago. A high class band concert will be given by the boys in St. Joseph's Social gymnasium, and during their stay in Oakland the Watsonville boys will be the guests of the boys of St. Joseph's Social.

Father Idephonse has also arranged for the band to give concerts in San Francisco, at St. Anthony's hall, June 23, St. Boniface church, Golden Gate, July 1. Father Florn, a talented musician, and who writes many compositions, will conduct the Watsonville band during its visit here. Composed of boys between the ages of 8 and 14 years of age, this band is considered by Father Idephonse to be the finest boys' band in the State.

NOISY CAMPERS SENT  
TO JAIL FOR 30 DAYS

HAYWARD, June 14.—Frank Dayle and Frank Bryan, two campers, were sent to jail for thirty days yesterday by Judge Charles Frowse, after pleading guilty to a charge of committing a breach of the peace. It was stated that the men had been camping in a creek, and their noisy behavior resulted in their arrest by Constable W. J. Ramage.

**PARIS, June 14.**—The Columbia Park Boys of San Francisco, who are making the advertisement of the Portola Festival to be given in that city one of the main objects of their world tour, attracted the attention of all Paris again today. Their morning, including a drill in the Bois de Boulogne, aroused a demonstration of enthusiasm on the part of Americans from the Latin Quarter. The students, marching in the parade, were a record-breaking success.

**ARTISTS COMPETING.**

SAN FRANCISCO, June 14.—Following the announcement that the Portola \$100 prize poster contest would be kept open till July 1, instead of closing June 15, the Portola Festival committee of San Francisco today received fresh assurances of greater success for the competition.

The postponement of the close was made in response to demands from artists in every part of California for more time—a demand in which the artists of Alameda county took a prominent part. Following the declaration that the contest would be open for a longer time, instead of a month, the committee has received a new flood of applications. The poster designs continue to pile up in the new Portola headquarters, in the Underwood building, 825 Market street, at a record-breaking rate.

Among the artists entered today was another Alameda county woman, Mrs. J. H. Sweeney, of the Oxford Apartments, Alhambra and Oxford streets, Berkeley.

**SCHWAB MAY CONSIDER BUILDING SHIPS HERE**

SAN FRANCISCO, June 14.—John A. McGregor, president of the Union Iron Works, returns this morning from New York, where he had a three weeks' conference with Charles M. Schwab, the steel magnate, prior to his departure for Europe last week.

The Bethlehem Steel Corporation, of which Schwab is the head, and which controls the Union Iron Works is about to expend \$20,000,000 in developing its recently acquired iron properties in Chile. Part of this sum is to be devoted to the construction of new vessels of a type carrying capacity to be used in transporting the Chilean iron mines' product to the American steel plants.

According to report from the East, Schwab and his financial associates are considering a plan for building some of these vessels at the Union Iron Works, where engineers designed them all.

President McGregor had hardly returned to this city recently before he was recalled East by Schwab for another long conference which it is believed, had to do with the building of the ten vessels and numerous improvements at the Union Iron works.

**Sugar Magnate Testifies That He Spent Every Season in Washington.**

**Has Spent 23 Years Watching Legislation; Senator Repudiates Friendship.**

WASHINGTON, June 14.—Henry T. Oxnard, the millowner, who was part of the American Beet Sugar Company, testified today before the Senate subcommittee that he estimated he had spent on an average of \$20,000 a year in Washington.

Each year, when he was at home in Washington, he declared he came to the capital to watch legislation and see his friends among the senators.

Senator Reed, chairman of the committee, asked Oxnard if he had ever attended any of the Senate's entertainments.

Mr. Oxnard replied in the negative.

The committee then turned to Mr. Oxnard without further delay.

Well, I can, Senator Overman, one of my friends, and Senator Cummins, the other, and both of them are in the Senate.

Senator Overman promptly asked Mr. Oxnard if he ever called on him at his office at home, or if he had ever attended any of the Senate's entertainments.

Mr. Oxnard replied in the negative.

The committee then turned to Mr. Oxnard without further delay.

**RAILROADS DENY LOBBY CHARGE**

**Attorney Carroll Says Only Argument Presented Was in Written Brief.**

WASHINGTON, June 14.—John H. Carroll of St. Louis, attorney for the Hill system of railroads, in the lobby investigation testified today that his only argument was the filing of a brief for the Great Northern and Burlington railways, dealing with creosote oil.

"I want to say that the so-called Hill railroads have no one in Washington trying to influence legislation," said he.

Mr. Carroll added that James J. Hill and possibly other officials of the Hill roads had been in Washington recently, but that they did not come in connection with legislation.

Anselm Wold, the Senate printing clerk, testified about the orders for printing "Sugar at a Glance," an anti-sugar argument prepared by Truman G. Palmer, representing beet sugar interests, and circulated free by the hundreds of thousands of copies under the franking privilege of Senator Lodge. The committee has developed testimony on whether Palmer was permitted to change the document after the Senate ordered it printed.

Wold told of the procedure of printing a public document, and turning to Senator Overman referred to a previous conversation about the incident and added:

"I told you then somebody had been monkeying with orders here and I still think so."

Wold could not throw much light on the situation and other Senate employees may be called.

**HOSTILITIES RENEWED.**

When F. R. Hathaway of the Michigan Beet Sugar Company took the stand hostilities broke out again between Senator Reed and Senator Nelson. Reed insisted on having the witness answer in one way, and the witness persisted in answering in another. Chairman Overman sided with Senator Reed and Senator Nelson sided with the witness. The Minnesota Senator finally quit his place at the committee table and took a seat with the audience. Senator Nelson returned to the table after Reed ended his examination and took Hathaway in hand.

Hathaway read several letters that passed between himself and W. H. Wallace and H. A. Douglas, explaining what they understood the position of President Wilson to be on sugar before election.

Douglas wrote Hathaway that after a meeting in the Detroit Armory, September 26, 1912, he had seen Mr. Wilson and that he had been assured that the beet sugar interest need have no fear.

"You need not be one bit afraid of me," Douglas quoted the President as saying.

**SAID UNION FRIENDLY.**

In the letter to Wallace about that conversation Douglas added after the quotation:

"I do not believe that Mr. Wilson will take any steps that will annihilate or retard a legitimate industry as ours. He has expressed me with his earnestness in this."

Henry T. Oxnard, vice-president of the American Beet Sugar Company and large owner of lands devoted to beet sugar growing, testified as to his activities in Washington. He declared he had sold most of his stock in beet sugar companies because of fear of free sugar. He and his brother had owned jointly \$4,000,000 of beet sugar stock in companies operating in Colorado, Nebraska and California, and now had \$1,400,000 invested in cane sugar in Louisiana.

**MARKET DECLINE LOWEST IN YEARS**

**Climax Reached in Violent Break, But Reaction Has Set In.**

NEW YORK, June 14.—The long decline in the stock market reached climax this week in a violent break which carried down prices in many cases to the lowest point in several years. After a week of decline to 12 points below the close of last month, the market today reached a new low. The immediate occasion of the decline was a case which was interpreted by Wall street as unfavorable to the railroad market. Troubled conditions in the foreign market, liquidation here for European account, a poor money statement by the United States Steel corporation and strained monetary conditions were contributing factors in the downward movement. Underlying them all, however, was the feeling of pessimism which had prevailed for months.

The turn in the market came toward the close of the week as a natural consequence of the abnormally rapid decline. Secretary McAdoo's statement that he would sanction issuance of emergency currency helped to bring about the return. The market was braced also by a slight relaxation in money, a more liberal attitude on the part of the banks toward commercial loans and the indirect effect of Union Pacific's lead which was lightened by exchanging part of its Southern Pacific stock for Pennsylvania's holding of Baltimore & Ohio.

The Southern Pacific Company has discontinued its plan to exchange its stock in this city and Shellmound station in Emeryville. Frequent stopping of main line trains here has made travel over the coast route less attractive. Their discontinuance was found necessary by the railroad company.

**LATE NEWS FROM RICHMOND**

**JURY RECOMMENDS REDUCED SPEED**

**Coroner Probes Collision of Street Car and Santa Fe Train.**

RICHMOND, June 14.—Recommendations that the Santa Fe railway reduce the speed of its trains in transit from the Richmond station to its mole at ferry points and that the San Francisco-Oakland Terminal Railway take measures of a more precautionary character to protect the safety of its street cars at railroad crossings were made by a jury which held last evening into the death of brakeman John Lowe of the Santa Fe. Lowe was killed last week in a collision between a local train of the Santa Fe and a local street car. No blame for the accident was fixed by the jury.

The inquest was conducted by Justice of the Peace John Roth in the absence of Coroner C. L. Abbott who has been called east by the illness of his mother, and 21 witnesses were examined as follows: Doctor C. L. Leitch, brakeman; P. E. Anderson, fireman; R. N. Williams, conductor; J. L. Shields of the Santa Fe; L. E. Baker of the street car; and L. W. Wilson, D. W. Dale, L. M. Mason, W. A. Johnson, J. H. Haskins, M. D. E. M. Gidson, C. C. Kiser, A. Kiser and J. F. Day, all of whom saw the accident.

The jury was composed of C. G. Yoncos, W. A. Lucas, D. W. Kinney, W. H. Smith, H. S. Everingham, J. A. Dooling and Thomas Arthur.

**TO DOUBLE-TRACK SANTA FE THIS YEAR**

RICHMOND, June 14.—According to information received from official sources of the Santa Fe in this city today, the double-tracking of that company's main line between this city and Stockton, a distance of about seventy miles, will begin before the end of the present summer and will be finished early in 1914. For the past six months the company has had construction crews at work along the line between this city and Stockton, widening the old tracks and otherwise preparing its right-of-way for the construction of the second track.

It is so that the necessary appropriation for the track has already been made by the company and that with the grading work finished by the end of July, nothing will then stand in the way of the laying of the additional tracks. The company expects to have all of its coast line between this city and Los Angeles double tracked by the opening of the summer season.

**GUARDS SAVE BIG ELECTRIC TOWER**

**Power Officials Claim That an Attempt Was Made to Blow Up Lines.**

RICHMOND, June 14.—Electric Superintendent A. H. Burnett of Pacific Gas and Electric Company, with headquarters in this city and jurisdiction over the company's lines in Contra Costa county, with other company officials, investigating an alleged attempt to blow up the big electric tower of the company which supports the large power cables which span Carquinez strait, he is commonly known as north tower and is on the Benicia side of the strait. The alleged attempt to dynamite it occurred Thursday night and had it been successful would have meant disaster for the company in its distribution plants in the east bay cities.

According to A. B. Kelley, foreman in charge of the tower, four men attacked the tower Thursday night and tried to blow it up with dynamite. Kelley, who was followed by a revolver duel, during which members of the attacking party fled. A lantern was shot from the hand of one of the guards, it is stated, as the dynamite was exploded.

Overwhelming the man whom the other guards who heard the shots, arrived, putting the men to flight.

The officials believe that the attack was made for the purpose of dynamiting the big electric tower and was also by sympathizers of the striking electricians or by strikers. Local members in the strikers' ranks emphatically deny that any of their men were mixed up in the attack.

**Richmond Legislator Files a Complaint With R. R. Commission.**

RICHMOND, June 14.—A complaint in which he asks that the East Shore and Suburban Railroad, owner of the local street car lines and now a part of the San Francisco-Oakland Terminal Railroad Company be compelled to provide all of its cars operating on the Richmond division with vestibules, to protect its employees and the traveling public from inclement weather was filed today with the state railroad commission by Assemblyman T. D. Johnston of this city.

During the last session of the state legislature Johnston introduced a bill in which he asked that the state compel all street railway companies to equip their cars with vestibules. Owing to the fact that the state could not make vestibuled cars necessary or desired and the proposed law would force such equipment he withdrew his bill when an examination of the state code showed that the railroad commission and naming its powers was construed to cover this point.

Instead of the bill he decided to take the matter before the state railroad commission, believing that body will grant the changes desired in local street cars and which is understood is favored by the street railway employees.

Johnston's complaint is made under Section 13 of the act creating the railroad commission and giving it the powers and duties with regard to the regulation of public utilities.

It maintains that vestibuled doors for use in inclement weather are necessary to protect employees and patrons from the weather to which employees and patrons are now exposed with both ends of the street cars open.

**BUTTE MAYOR OBJECTS TO I. W. W. RUNNING HIM**

BUTTE, Mont., June 14.—In an effort to avert his possible enforced resignation from office, together with five Socialist aldermen, Mayor Lewis J. Duncan has decided to appeal to the state executive committee of the Socialist party, a meeting of which has been called in this city for Sunday. Mayor Duncan will urge the revocation of the charter of the Socialist local, with the proposed organization of a local not controlled by the I. W. W.

Mayor Duncan's refusal to have his administration of the affairs of the city of Butte controlled by the I. W. W. has led up to the lodging of charges against him and five Socialist aldermen by the so-called radicals.

**SOLANO COUNTY TO HAVE NEW WATER SUPPLY**

SOLANO, June 14.—An announcement of the largest importance to Solano county was made yesterday by Patrick Calhoun, president of an irrigated farms company, who has just engaged Professor Hyde of the University of California to take charge of and erect an extensive irrigation and sterilization plant for furnishing water to the new city of Solano and the surrounding country.

The water will be taken either from the reservoir or irrigation canal on Solano Farms, and will not only be carefully filtered but will also be sterilized. A plant with a capacity of two hundred thousand gallons per minute will be erected at once with arrangements for larger facilities as soon as the business warrants. Solano, now, which has heretofore had no drinking water facilities, will now have the benefit of this water supply.

**CITY PAYS FOR GOAT.**

SAN FRANCISCO, June 14.—After voluminous correspondence between Dr. Frederick Van Orden and Mayor Ralph and Chairman Jennings of the finance committee, the committee yesterday solemnly agreed to return to Mrs. Mahoney, who lives near the county line, \$1.50 paid by her to reimburse her for a goat which she had lost.

The goat was found by the city at the time the pound deputies illegally and unlawfully carried it off.

**Most Children Have Worms.**

Many mothers think their children are suffering from indigestion, headache, nervousness, weakness, costiveness, when they are victims of that most common of all children's ailments—worms. Febrile, irritable, fretful children, who lose and grind their teeth, with bad breath and colicky pains, have all the symptoms of having worms. And should be given Kickapoo Worm Killer, a pleasant candy lozenge, which expels worms, regulates the bowels, tones up the system, and makes children well and happy. Kickapoo Worm Killer is sold by all druggists or by mail. Price 25c. Kickapoo Indian Medicine Co., Philadelphia and St. Louis. Recommended by Osgood Reed.
